THE TONY CINQUANTA

VETERANS SERVICE CENTER

AT HOMES FOR THE BRAVE

Homes for the Brave opened the doors to the Tony Cinquanta Veterans Service Center in 2010. The Service Center helps any Veteran who is at risk of or experiencing homelessness. There is a multitude of ways in which we can assist.

This includes: immediate basic needs assistance; referrals to housing and other supportive services; life skills seminars; computer classes; employment workshops; and opportunities to interface with federal legislators. A licensed psychologist or social worker is available for mental health services and a full time vocational specialist is ready to connect Veterans with educational benefits and job training.
